

Previously known as: MICROGARD® 2000 STANDARD - Model 122

Superior, breathable microporous laminate protective suit, designed for diverse industrial applications.

- **Specialized protection:** Offering light chemical resistance*, the AlphaTec® 2000 STANDARD Bound - Model 122 guards against bloodborne pathogens, liquid and particulate biological agents, and low concentration liquid chemicals, including pesticides
- **Improved breathability:** This protective outer garment's microporous polyethylene laminate nonwoven material reduces heat stress
- **Assured antistatic capabilities:** It also complies with EN 1149-5 antistatic standards
- **Reduced cross contamination risks:** Low-linting fabric minimizes the risk of cross contamination in critical areas
- **Limited surface defect risks:** Being silicone-free, contaminant transfer to metal prior to painting is a lesser risk
- **Enhanced fit and features:** This protective body suit's optimized fit improves comfort levels, while it also features a three-piece hood and integrated boots with ankle ties and slip soles

*CE Category III Type 5/6 protection
