

Previously known as: MICROCHEM® 4000 Overboots - Model 406

Chemical-resistant foot covering, featuring innovative multi-layer barrier technology.

- **Heightened defenses:** With over 200 chemicals permeation tested, including chemical warfare agents, AlphaTec™ 4000 Overboots Ultrasonically Welded - Model 406 offer exceptional personal protection from organic and inorganic chemicals
- **Enhanced protection:** In addition, these overboots are made of a unique multi-layer barrier fabric that is known for its lightweight yet robust textile feel
- **Reduced contamination risks:** This green protective foot covering is also free from silicone, reducing contamination risks, and is considered process safe in various environments

Industries

- Life Sciences
- Mining
- Fire and Rescue
- Energy
- Automotive Aftermarket
- Food Processing

Applications

- Transferring liquids and solids
- Opening and draining pumps valves or lines
- Raw material sample collection
- Hazmat response
- Filling, blending and charging of raw materials
- Contaminated Environments
- Concentration mixing and palletisation
- Assembly and disassembly of equipment
- Chemical Handling

KEY FEATURES & BENEFITS

- ◊ **Excellent protection:** Safety footwear with superb chemical resistance
- ◊ **Designed to protect:** Guaranteed day-to-day comfort and durability
- ◊ **Silicone-free:** Lowers contamination risk, enhances product protection
