Ansell

GAMMEX[®] Latex Lite

SURGICAL GLOVES

Latex, powder free micro surgical gloves offer exceptional tactile sensitivity and dexterity

- Heightened dexterity: Being 20% thinner than Ansell's standard powder-free latex gloves, GAMMEX[®] Latex Lite offer exceptional level of tactile sensitivity and dexterity preferred for delicate procedures
- Elevated ergonomic comfort: Ansell's unique anatomic glove formers deliver surgical gloves designed for enhanced comfort and movement to help reduce hand fatigue
- **Double-gloving versatility:** This micro glove's brown color diminishes surgical glare while offering the wearer the option to use it as an inner glove when double gloving for easy breach detection
- Enhanced donning aid: A unique internal coating enables easy donning and doffing under dry or damp hand conditions, be it the first don or during intra-operative changes

CAUTION: Safe use of these gloves by latex-sensitized individuals has not been established. This product contains natural rubber latex, which may cause allergic reactions.

Recommended For

- All surgeries, especially delicate procedures in ophthalmology, micro, and cardiovascular
- Enhanced tactile sensitivity and dexterity, especially for delicate procedures
- Damp donning
- Prevention of eye fatigue

FEATURED TECHNOLOGIES

A.R.T Pinhole Barrier Technology

GAMMEX[®] Innovation that Protects

Driven by innovation, GAMMEX[®] surgical gloves are engineered to respond to the evolving user needs of the surgical community. Featuring unique formulations and cutting-edge technologies, ergonomic comfort and superior protection, healthcare workers around the world entrust their hands to ours.
